Selecting Benefits

Choosing employee benefits is one of the most important decisions a person will make as an employee at the university and Human Resources strives to ensure employees are informed when making those decisions. Employees must be 50% appointed (average 20+ hours) or greater and not in a student position, such as Graduate Assistant, to be eligible for employee benefits. Participation in certain benefits is mandatory and considered a condition of employment. Basic insurance benefits are 100% paid by the University.

Mandatory benefits are:

- Basic Life Insurance
- Basic Long-Term Disability Insurance
- Employer contributions to retirement
- Required 5% employee contributions to retirement

Other benefits are optional and can be waived. Employees pay for all or a portion of the premiums for optional benefits. Completion of the enrollment process is required, even if only enrolling in mandatory benefits. You must submit dependent documentation if you are covering dependents i.e. spouse or children on your U of A benefit plans.

New employees have 31 days from their benefits-eligible appointment date to enroll in benefits. Mandatory benefits are effective as of the benefits-eligible appointment date. Optional benefits are effective the first day of the month following the benefits-eligible appointment date or the date an employee completes the benefits enrollment process, whichever is later. Documentation of dependent eligibility is required to cover eligible family members on health and dental coverage and vision insurance.

Visit the HR website at <http://hr.uark.edu/> for new employee orientation dates.

More information about enrolling in benefits, which is managed in Workday, is included in this booklet. Contact HR at 479-575-5351 or hrbenf@uark.edu for assistance.

Health Coverage

The University of Arkansas Health Coverage Plan is a self-funded plan. Claims are administered by UMR (a division of United Healthcare), and participants use UMR providers as their in-network providers. The prescription drug portion of the University's Health Coverage plan is administered by MedImpact. Both UMR and MedImpact offer nationwide networks of providers.

You have a choice of three health plans (all administered by UMR) for you and your family's health coverage:

HEALTH SAVINGS PLAN

If you select the Health Savings Plan, you will have the lowest premiums but will have the highest out-of-pocket costs. Services for out-of-network providers will be covered at reduced rates. Participants are eligible for a Health Savings Account (HSA)—see pages 16-17.

CLASSIC PLAN

If you select the Classic Plan, you will have mid-range premiums and mid-range out-of-pocket costs. There are no benefits for out-of-network providers other than for true emergencies. Participants are eligible for a healthcare FSA—see pages 16-17.

PREMIER PLAN

If you select the Premier Plan, you will pay the highest premiums but will have the lowest out-of-pocket costs. Services for out-of-network providers will be covered at reduced rates. Eligible for a healthcare FSA—see pages 16-17.

Health Plan Features

Infertility Treatment

The maximum lifetime benefit is \$30,000 (\$20,000 for medical and \$10,000 for pharmacy). Coverage includes: Associated IVF prescription drugs, Artificial insemination, Gamete intrafallopian tube transfer (GIFT), Intracytoplasmic sperm injections (ICSI), Medical costs for donor sperm/eggs, and genetic testing to diagnose infertility. Some exclusions apply. You can enroll in UMR's Maternity Management Program for assistance with claims, pre-approvals, and options. Call (844) 604.6244 to enroll.

Claims Appeals

Employees who disagree with a denial of a medical claim or a rescission of coverage determination can request that the Plan review its initial determination by submitting a written request to the Plan. There are two levels of internal appeal and a third level through a right to an external review. There are timelines and specific procedures for all three levels of the appeals process. For more information and assistance with filing an appeal, please reach out to a Benefits Representative or refer to the Medical Summary Plan Description found on the U of A System website: <https://benefits.uasys.edu/health-and-wellness/medical/>.

Health Coverage Premiums

Health Insurance premiums at the university are divided among four different salary bands. Employees in the lower salary bands receive a larger percentage of employer contribution than employees in the higher salary bands. Note: employees who are less than 100% appointed have different premiums which can be found on the HR website. See page 11 for a table of health premiums.

Prescription Drugs

The prescription part of the University of Arkansas Health Coverage plan is administered by MedImpact. MedImpact has a nationwide network of pharmacies, including most chains. The U of A prescription drug formulary is maintained by the University of Arkansas System Pharmacy Advisory Committee, which is comprised of faculty and clinical pharmacists, physicians and nurse practitioners who advise the Committee on the most recent medical research results. The Committee's recommendations are based on the latest available evidence-based studies.

You pay one co-payment for each 30-day supply of drugs. Certain maintenance medications will allow you to receive a 90-day supply (one copayment for each 30-day supply) after you have filled two 30-day supplies.

Preventative Care

The University of Arkansas health coverage plan promotes wellness. Annual physicals, annual OB/GYN exams and well-baby visits are covered at 100%.

Bariatric Surgical Procedures

Bariatric Surgical Procedures are covered if you have a body mass index of 40 without co-morbidity or BMI of 35 or greater with obesity-related co-morbid medical conditions including hypertension, cardiopulmonary condition, sleep apnea, diabetes, or any life-threatening or serious medical condition that is weight-induced. You must demonstrate that dietary attempts at weight control have been ineffective through completion of a structured diet program such as Weight Watchers or Jenny Craig; and within the 12-month period immediately prior to the request for the surgical treatment have completed a structured, physician-supervised diet program of no less than six months duration including the following: documentation in the medical record of participation by the physician, no weight gain during the program, behavior modification supervised by a qualified professional, consultation with and participation in a reduced-calorie diet program supervised by a dietician or nutritionist, and exercise regimen (unless contraindicated). Completion of a psychological examination of the member's readiness and fitness for surgery and the necessary postoperative lifestyle changes must also be completed. Facilities for procedures are restricted to accreditation under ACS, ASMBS and MBSAQIP. No experimental or investigational procedures will be covered. Procedures are limited to one procedure and one revision per lifetime. Cosmetic procedures are not included. Patients must be 18 years of age or older.

Nutritional Counseling

- You must re-enroll in FSAs every year during the annual enrollment period.
- Reimbursement requests must be made no later than March 31 of the following year.
- If you use your FSA Benny Card to pay for your healthcare expenses, save your receipts. You may be required to provide documentation that it was an eligible expense.

Flexible Spending Accounts (FSA) are tax-exempt accounts that you can use to pay for eligible medical, dental, vision, prescription, and dependent daycare expenses. Your contributions to an FSA are deducted from your pay before taxes, which lowers your taxable income. You have two FSA options:

Healthcare FSA – Employees who participate in the Health Savings Plan are not eligible for the Healthcare FSA. All other benefits-eligible employees are eligible to participate in a Healthcare FSA.

Dependent (day) Care Account – All benefits-eligible employees are eligible to participate in the Dependent Care FSA.

You elect your contribution for the remainder of the calendar year within 31 days of your benefits-eligible appointment date and annually after that during Open Enrollment. Contributions will be deducted from your paycheck exempt from taxes. You will have access to your full Healthcare FSA annual contribution amount any time during the year.

Retirement

U of A Retirement Plan – 403(b)/457(b) plan

A Defined Contribution Plan is a plan that does not pay a specific benefit when you retire and where the retirement benefit is dependent on the earnings or losses of your chosen investment options. Employee and Employer Contributions

Employees are required to contribute 5% of their gross pay to their U of A retirement plan. The university's contribution will not be less than 5% and will increase to match your combined required and voluntary contributions in excess of 5% up to a maximum employer contribution of 10%. Employees may contribute additional unmatched contributions in excess of 10%. Contributions are subject to IRS limits.

Vesting

Employer retirement contributions for all faculty and staff hired July 1, 2016, and after will be vested at the end of 24 consecutive months of employment in a benefits-eligible position. Employee contributions are 100% vested immediately. Employees not vested when U of A employment ends will forfeit any employer contributions made by the university. The U of A has a once vested, always vested rule. If you previously worked for any U of A System campus and were vested when you left employment, you will retain that vesting status when you are re-employed by any System Campus. Please inform HR of any prior U of A System employment. If you are not vested when you leave U of A employment and return to the university with a separation of more than 30 days your vesting period will start over.

Required Contributions

The required employee contribution must be tax deferred.

What is Vesting?

U of A Retirement Plan- Nonforfeitable ownership by employees of retirement contributions made by the employer on their behalf. In addition to the 24-month vesting rule, you will also be vested if, while employed in a benefits-eligible position:

- You die
- You reach age 65
- You become disabled as determined by Social Security or U of A's Disability Insurance provider.

How Much Can I Contribute?

Employees can contribute up to 100% of their salaries after required taxes and other payroll deductions, not to exceed the IRS limit. Voluntary contribution limits for 2025 for combined tax-deferred and Roth contributions are:

2025 Plan Limits	Employees Below Age 50	Employees age 50 and Above
403(b) Plan	\$23,500	\$46,000
457(b) Plan	\$23,500	\$31,000 (\$23,500 + add'l \$7500)
Total:	\$47,000	\$62,000

Additionally, under IRS limits in 2025, the U of A can only make the employer contributions on \$350,000 of your gross pay.

The 403(b) plan is the U of A Retirement Plan's primary plan. You will only participate in the 457(b) plan if you reach your 402(g) limit in your 403(b) plan before the end of the calendar year. You will provide your directions for managing your contributions if you reach your 403(b) or 402(g) limits when completing your retirement plan enrollment.

How Do I Contribute?

You may contribute to your 403(b) plan in two ways:

Traditional tax-deferred – contributions and earnings will be subject to income taxes when withdrawn. The required contribution is tax deferred.

Roth after tax – voluntary contributions made on an after-tax basis and are included in current taxable income; earnings are tax exempt if they are part of a qualified distribution (at least five years from the year of your first U of A Roth 403b contribution and after you have reached age 59½).

You will want to choose your Roth and tax-deferred contributions based on your age, time horizon and current/future tax bracket.

Where Do I Contribute?

The U of A Retirement Plan offers many investment options through one or both fund sponsors:

Fidelity Investments –Go to netbenefits.com/uark or call Fidelity directly at 1-800-343-0860 to learn more.

TIAA - Teachers Insurance and Annuity Association. Go to www.tiaa.org/uasys or call TIAA directly at 1-800-842-2252 to learn more.

U of A employees have the option of investing their contributions in a streamlined selection of funds or setting up a self-directed brokerage account to invest in their choice of thousands of mutual funds. TIAA and Fidelity will be the investment providers but funds from Vanguard, JP Morgan and others will be available in the core lineup through both Fidelity and TIAA. See the next page for the funds available. If you do not make a fund election you will be defaulted to the Target Date Funds closest to your 65th birthday.

Employee Required Contributions

Employee Required Contributions are not included in the 402(g) limits but will be included in the overall 415(c) plan contribution limits (combined employee and employer contributions) of \$66,000 for 2025. The additional \$7,500 402(g) limits for employees 50 or older do not apply to the 415(c) limits. Contributions to the 457(b) plan also do not apply to the 415(c) limits.

Can I change my original retirement elections?

You can change your voluntary retirement contribution elections every month. This includes the amount you are contributing and changing your vendor choice between TIAA & Fidelity. You cannot contribute to both TIAA & Fidelity in the same pay cycle. You can change your contribution or vendor any time online through Workday.

Prior Contributions

Your retirement limits accumulate from all employer sources for the calendar year. If you think that your combined contributions for the calendar year will reach your retirement limits, contact HR with other retirement plan participation information.

Arkansas Employee Assistance Program

Benefits-eligible university employees and their eligible family members have access to an Employee Assistance Program (EAP). Your privacy is protected by state and federal law and professional standards of confidentiality. Any records or notes remain within the EAP and are not part of your personnel file or medical records.

The university pays the entire cost of this program. If you are referred by the EAP to a community resource in a specialized area and you choose to participate in this program, you will be responsible for the costs.

The EAP is a good place to start when you are facing problems. Your first appointment provides an opportunity for you and the EAP consultant to identify the problem by working together to begin to outline solutions. The EAP provides counseling, information, and referrals for employees in the areas of:

- Stress management
- Relationships
- Grief/bereavement
- Substance abuse
- Life balance
- Elder care
- Personal/emotional concerns
- Compassion fatigue
- Work-related issues
- Anger management

The EAP helps supervisors, managers and employees troubleshoot problems and provides training and educational programs to improve the overall health and wellness of the organization.

The EAP is not involved in grievance or disciplinary issues and is not designed to replace any Human Resources or management procedures. The EAP does not provide long-term psychotherapy or court-ordered treatment.
